

Work **Without Limits.**

Open Systems Architecture and Sharpdesk

With **Sharp's** award-winning **Open Systems Architecture (OSA)**, a Sharp MFP becomes a **customizable portal**, providing **convenient access to documents and applications in the Cloud** and across your network. Sharp **OSA** ensures **mission-critical information is always in reach** while maintaining your **IT network and security policies**. Add **Sharpdesk and Sharpdesk Mobile**, and your MFP becomes a **fully integrated information powerhouse**.

Customers first.

That's the heart of the Sharp Experience. The **Sharp Experience** shapes everything we do. At its core is **our belief that business, like friendship, is built on trust**. To earn and maintain yours, we've built **real accountability into everything we do**, from developing **leading-edge technologies** to providing truly **dependable support and service**. We're **passionate** about The **Sharp Experience**. Partner with us, and you'll understand why.

SHARP

thesharpexperience.com

Sharp OSA. Open for Business.

Sharp OSA is one of the industry's most flexible development environments and has one of the most robust developer communities. The result is an ever-growing portfolio of off-the-shelf and custom solutions designed to increase usability, security, accountability, and productivity while reducing costs. Developers can create and customize applications for Sharp OSA to improve your company's unique processes and workflow.

- Reduce errors and increase usability with intuitive graphic interfaces.
- Simplify and speed up document processing.
- Eliminate redundant tasks.
- Automate paper-based processes.
- Manage user access and usage.
- Track and manage costs.
- Strengthen network security.

The power of Sharp. The convenience of your desktop.

With its user-friendly drag-and-drop interface, **Sharpdesk™** enables users to quickly search, create, combine, and distribute proposals, reports, and other documents. It supports more than 200 types of files, including: Microsoft Office documents, PDFs, JPEGs, TIFFs, and BMPs, making document management a snap.

- Search files using full text and metadata fields.
- Browse search results by thumbnail, file name, and keyword for fast recognition.
- Convert image files and scanned PDFs into searchable PDFs.
- Combine various file types into a single document
- Edit, annotate, approve, and stamp documents digitally, without overwriting originals.
- Scan and convert print documents into editable digital files.
- Compress files.

Sharpdesk™ Mobile. Cut the cord, not the security.

All it takes is a wireless network, a supported Sharp MFP or printer, and our powerful **Sharpdesk™ Mobile** app. It automatically discovers available printers anywhere in your organization, so you're always ready to scan, print, and send documents directly to and from your smartphone, tablet, or laptop. **Sharpdesk™ Mobile** also allows you to store and share files with other users via your network or email—simply, securely, and seamlessly.

- No print driver to install.
- Automatically discover available MFPs and printers from your mobile device.
- Preview and print right from your mobile device.
- Scan and save directly to your mobile device.
- Email and share scanned documents from your device.
- User authentication maintains network security.

The **Sharp Experience**. The promise of a **rewarding and friendly experience** through every member of our team. We will remain **accountable for your business** always. We will **treat you as friends** should, with **trust, dependability, accountability, and flexibility**. We are passionate about The **Sharp Experience**, and all of us are looking forward to the **opportunities of supporting you**, and to making new friends along the way, after all, **life and business are meant to be enjoyed**.
